March 18, 1960

Mr. Allen W. Dulles

Dear Mr. Dulles:

The New March of Dimes 1960 Campaign has just concluded. Unfortunately, our goal has not been met. This could mean that the new program to give patient aid to children suffering from birth defects and rheumatoid arthritis will, of necessity, be very limited. Programs of research necessary to discover cures for crippling diseases in children may have to be substantially curtailed. The cure for polio could not have been discovered by Dr. Salk without financial assistance given him by the March of Dimes.

There are now in our community approximately 200 polio victims who depend solely upon our local Chapter for financial aid and medical assistance. This program must be continued. Your donation will be of substantial help and will be deeply appreciated by me personally.

Please make your check payable to The New March of Dimes and send either to me personally at the above address, or to the office of The New March of Dimes, 1631 K Street, N.W. Washington 6, D. C.

Very truly yours,

Franklin D. Roosevelt, Jr.
Chairman, Special Appeals

(EXECUTIVE SECRETARY FIVE)
